Wake Up – Raising Youth Awareness on Metaverse

The WAKE UP Digital Platform

The WAKE UP platform serves as a comprehensive hub for e-learning resources and digital tools, with a primary focus on educating young individuals about the concept of the metaverse. It endeavors to dismantle misconceptions and falsehoods surrounding the metaverse while shedding light on both its potential risks and opportunities.

Within the platform's e-learning domain, users gain access to a diverse array of digital assets, including online courses, best practices, and interactive activities. The interface is meticulously crafted to be user-friendly, drawing inspiration from the visually cohesive WAKE UP website, to ensure a seamless and familiar experience for learners.

Moreover, the platform boasts an extensive e-library brimming with multimedia content, enriching the learning journey and prompting further exploration of the metaverse's intricacies. By equipping young minds with knowledge and skills, the platform aims to empower them to navigate the dynamic landscape of the metaverse with discernment and efficacy.

UNIVERSITY OF
THESSALY

Who we are:

The WAKE UP consortium comprises six organizations, with participating partners hailing from Spain, Poland, the Netherlands, Greece, and Cyprus.

Asociación Valencia Inno Hub (ES)
 Stowarzyszenie SEDA (PL)
 Atermon B.V. (NL)
 Panepistimio Thessalias (GR)
 Xenios Polis. Culture, Science and Action (GR)
 M.M.C Management Center Limited (CY)

2nd Transnational meeting in Rotterdam

The second transnational meeting of project partners convened in Rotterdam, bringing together stakeholders to deliberate on the project's advancement, assess current outcomes, and engage in collaborative brainstorming for the forthcoming culminating event in Cyprus. The gathering proved highly productive, fostering a synergistic exchange of ideas and enhancing consortium cohesion.

Project Number: 2022-1-ES02-KA220-YOU-000087011

Our next plans:

- ✓ **Final Multilingual Version of the WAKE UP Platform:** The WAKE UP platform is available in all partner languages.
- ✓ **Awareness Rising Events:** Between September and November 2024, all partners are tasked with organizing Awareness Rising Events. Each event must involve a minimum of 20 individuals from the target audience, and relevant documentation such as attendance lists, photos, and agendas must be provided.
- ✓ **Final Conference and TPM in Cyprus (October 2024):** The final conference of the project, coupled with the last Transnational Project Meeting (TPM), is scheduled to take place in Cyprus in October 2024. The event aims to attract 40 members of the target audience, along with 10 staff members. MMC, responsible for organizing the conference, proposes hosting it in a venue equipped with augmented reality and virtual reality tools. MMC will gather information from local resources and share it with partners on April 24

By the end of the project:

Ensuring that the benefits of the metaverse outweigh its drawbacks hinges on equipping subscribers with the knowledge to leverage it effectively. Educating individuals is paramount in preparing them to navigate this digital realm and capitalize on its vast potential.

By instructing young people on harnessing the metaverse to enhance skills, foster civic engagement, and pursue personal interests, we foster active citizenship, entrepreneurial spirit, and curiosity across various disciplines like science, technology, engineering, and mathematics. This approach not only maximizes the utility of technological advancements but also cultivates a more engaged and versatile society.
